#### Vehicle Type

The cars listed are examples only. Reservations are to be booked by car group only. If the car confirmed is not available at the time of rental, we will provide a similar or superior vehicle at no extra cost.

#### Credit Card Required

No rentals can take place without the main driver having a major credit card present.

#### Rental Extension

Should a renter wish to extend the rental, it is recommended that such a request is made at our location as soon as possible so that every effort can be made to accommodate the request. Any extension of rental must be paid at local rates to our location before the extended rental period starts.

#### Vehicle Delivery

We undertake it's utmost to provide the vehicle at the agreed time and to ensure that it meets the requirements made upon it. However, we cannot provide any compensation if the car delivery is late according to reservation. All rentals are on a daily (not 24 hour) basis and the renter will be compensated by late return instead.

#### Upgrades

Customer requesting upgrades will be charged the difference between the rate of the car group reserved and the rate of the car group requested.

#### Damage Theft and Accidents

In the event of a car breakdown, theft or accident the emergency number (on rental agreement and key chain) must be contacted immediately. In the event of an accident, the police must be called to the scene so that a correct and official police report can be made. If damages occur to the vehicle while it is stationary and the driver is absent (e.g. car is parked), the driver must go to the nearest police station to report the damage. The same procedure applies should the vehicle be stolen.

#### Driver's License

The driver must present a valid driver's license held for a minimum of one year at the time of rental. An International Driving Permit (IDP) / International Driving License (IDL) is also required if the national driver's license is not in the Roman script.

#### Age Restrictions – Minimum Age

25 – 75 years, under aged drivers (20-24 year old) will be charged with 100€. We require a one year old and valid driver's license.

#### Methods of Payment and Deposit

No rentals can take place without the main driver having a major credit card present issued in his name. Acceptable credit cards are: MasterCard, Visa, American Express and Diners Club. Prepaid credit cards are not acceptable! An authorization from the credit card will be taken at the start of all rentals as a deposit even if the cost of the rental is covered by a voucher. This deposit may be used to cover the insurance excess and any extra charges such as petrol and traffic tickets. Cash payment is not accepted at any time. It is essential to inform your clients accordingly. We will not rent cars without a credit card from the main driver.

#### Driving Restrictions

(Further area restrictions are at any time and expressly reserved)

In addition to all advisory by the Icelandic Road Administration all vehicles except the 4x4 models are not allowed to be driven on roads marked F on official maps as well as Kjölur (Road 35), 393 (Öxi), 520 (Dragafell), Kaldidalur (Road 550) and all back roads. Should these restrictions be ignored, all insurances (Third Party Liability, CDW, etc.), shall be deemed, invalid. The driver will be held fully responsible in case of accidents or collision, including the cost of repair of the damaged vehicle and the cost of towing. In the event of violation of these provisions – even if no damage occurs – we will impose a fine. This does not affect the liability of the renter to pay for damages. Should a car be spotted on a road on which it is not allowed, a fine will be imposed by us – even if no damage occurred. The fine currently amounts to ISK 100.000. This fine does not affect the liability of the renter to pay for damages.

ATH: Due to the sand and volcano ash we cannot guarantee an airtight vehicle. All Motor HOMES AND CAMPERS have breathing holes because of electric and gas equipment. Driving in dusty conditions could cause the vehicle to fill or leave traces of sand, dust or ash.

#### Fuel Price

All cars are rented with a full tank. If the car is not returned with a full tank an additional charge applies. Prepaid fuel options are available at selected rental stations.

#### Reservations ...

##### Cancellations

The Reservation Department should be advised of any cancellation of a booking as soon as possible. We reserve the right to charge the following cancellation fees:

50% of total reservation value if cancelled 60 days before the start of rental or more.

75% of total reservation value if cancelled 25 to 59 days before the start of rental.

100% of total reservation value if cancelled 0 to 24 days before the rental and for "no-show"

##### Availability

We reserve the right to substitute a comparable or superior vehicle at no cost to the customer. Such action by us do not constitute a breach of the vehicle conditions/contract and does not entitle the renter to any refund. If no alternative vehicle is available, liability is limited to the return of all payments made.

#### Accidents, Damages and Emergencies ...

##### Damage, Theft and Accidents

In the event of a car breakdown, theft or major accident the emergency number must be contacted immediately. The emergency line is staffed 24/7 and the number can be found on the key chain. In the case of an accident, the police must be called to the scene in order that a correct and official police report can be made. If damages occur to the vehicle while it is stationary and the driver is absent, the driver must go to the nearest police station to report the damage. The same applies should the vehicle be stolen.

### Car Breakdown

In the event that the vehicle malfunctions owing to wear or other reasons for which the renter is not responsible, Camper Iceland will supply him with another vehicle as soon as possible or ensure that a repair is to be completed as soon as possible at a location specified by Camper Iceland. The above does not affect the payment of the rent or any other charges payable by the renter hereunder. Camper Iceland pays no damages in cases such as provided herein, neither for accommodation nor other things. Malfunctioning gas heating, gas stoves, ovens (incl. microwave) and other motor home or camper equipment is not considered a breakdown.

### Cost of Damage

Damages are generally payable at the end of the rental. However, if a vehicle is so badly damaged that it will have to be replaced, Camper Iceland asks for settlement of the damage before a replacement car will be provided. The renter is responsible to inform Camper Iceland about any damages that have occurred to the car. Camper Iceland may debit the renter's bank or credit card for the rental charge and other costs payable by the renter, such as payments in respect of damage to the vehicle while in the possession of the renter. The time and terms of payment shall be the sole discretion of Camper Iceland. This right shall remain unaffected for 6 months following the return of the vehicle to the Camper Iceland. The cost of damage is determined by a price list available at all Camper Iceland locations. In the case of major damages not covered by insurance, e.g. water damage, the cost will be estimated at an authorized garage.

### Car Replacement

Replacing a damaged car is subject to availability. Sometimes replacing the damaged vehicle with the same type is not possible. Such action by Camper Iceland does not constitute a breach of the contract and does not entitle the renter to any refund. If no alternative vehicle is available, Camper Iceland has no liability for refund any cost incurred by the renter. A replacement vehicle will not be provided before the damage of the last provided vehicle has been settled.

### Transport of a Damaged Car

Transporting a damaged car costs ISK 350 per km for the renter. There is always a minimum cost of ISK 60.000 which the renter must cover.

### Tires

Tires are always the renter's liability. If tires go flat the renter is responsible for replacing the tire with same pattern and size at the nearest tire garage. If there is no tire with same pattern available the renter is required to call the Camper Iceland phone number for instructions. Avis does not offer an emergency service for replacing flat tires.

### Vehicle Condition Report (VCR)

With every rental the customer receives a Vehicle Condition Report on which all damages are marked. The customer is asked to sign the VCR and is handed a copy of the report. He has then the opportunity to check the car and ask for amendments in case of any discrepancies to the VCR. A copy of the VCR is in the car and another copy is attached to the rental agreement. This prevents that the customer gets charged for damages he is not responsible for.

### Service Stations

Camper Iceland has many partner garages all around Iceland which provide help in case of damages to the rental car. In case of any problem the Camper Iceland reservation centre will provide further information.

### Insurances ...

#### Third Party Liability

Third-party liability insurance and accident insurance for owner and driver consists of the amount stipulated by Icelandic law at any given time. The renter's own risk (also termed as "deductible", i.e. the amount that the renter has to cover himself towards the damage) with regard to damage to the vehicle amounts up to the full value of the vehicle.

#### Collision Damage Waiver (CDW)

This option limits the renter's financial liability for damage to the vehicle, its parts and accessories, except theft, attempted theft or vandalism, provided the vehicle is used according to the terms and conditions of the rental agreement. If CDW is declined, the renter will be responsible for damage up to the full value of the vehicle. All rentals are subject to a non-waivable excess, depending on the vehicle group rented, for which the customer is responsible in the event of damage to the vehicle during the rental. If he chooses to rely on a credit card for cover, we strongly recommend that he fully understands the terms and conditions of any cover provided by the credit card company before declining any of our services.

#### Excess insurance / Self risk insurance

The purchase of an excess insurance reduces the renter's financial liability even more. In case of a damage the customer will have to pay Camper Iceland the full amount according to the agreement (CDW 2400€). Camper Iceland will provide the customer with a detailed document package. The customer must send the document package to ERV (Europäische Reiseversicherung) in Basel Switzerland to receive the already paid amount back.

#### Front Windscreen Protection (WP)

The purchase of WP waives the renter's financial liability in case of any damage to the front windscreen. WP is available at the rental desk and cannot be booked in advance.

#### CDW, excess insurance does NOT cover:

- Intentional damage or damage owing to gross negligence by the driver;
- Damages to the interior of the vehicle;
- Damage resulting from the driver being under the influence of alcohol, stimulants or sedatives, or otherwise incapable of controlling the vehicle in a secure manner;
- Damage owing to racing or test driving; damage owing to war, revolution, civil unrest or rioting; damage inflicted by animals; holes burned into seats, carpets or mats; damage affecting only wheels, tires, suspension, batteries, glass (except for Windscreens (only if additional insurance is taken), radio receivers or loss by theft of parts of the vehicle and damage resulting there from;
- Damage caused by driving on rough road, such as damage to the vehicle's
- Transmission, drive, or other components in or attached to the chassis; damage to the chassis resulting from the vehicle bottoming on rough roads as a result of ridges left by road graders; stones lodged in the road surface or at the edge of the roadway. The same applies to damage from stones being thrown up and striking the underside of the vehicle during driving.
- Damage resulting from driving in places where the vehicle is not permitted to be driven, such as tracks, rough trails, in snowdrifts, on ice, across UN-bridged rivers or streams, on beaches, on causeways accessible only at low tide or in other off-road areas. However, compensation will be paid for damage resulting from the driver being forced to leave the roadway, e.g. for roadside repairs.
- Damage to passenger vehicles that occurs during driving on roads marked F on official maps;
- Damage caused by sand, gravel, ash, pumice, or other earth material being blown onto the vehicle;
- Water damage to the vehicle; also damage caused by sea spray/seawater if the vehicle is transported by sea
- Further exclusions apply. For details please refer to our full Terms & Conditions available on request such as the terms and conditions of ERV (Europäische Reiseversicherung).
